The ambulance was called to Ottawa street yesterday morning to remove Christina Timmerman, who had fallen in a fit. When the ambulance arrived she had recovered sufficiently to walk home.

No Money in Ice.

A gentleman who recently engaged in the ice business, was complaining yesterday of the extensive competition in that line. "There are about a dozen companies," said he, "that are handling ice and they keep encroaching upon each other's territory. By this method of conducting business a firm is obliged to cover a large territory to supply a small trade. Half the number of companies could handle a city of this size all the ice that could be consumed by it, and a little profit would accrue to the trade. But as there is no money in the business."

Death of Mrs. Mase.

Mrs. Sarah M. Mase died yesterday morning at her home, No. 246 Twelfth avenue. She is the widow of the late J. H. Mase, a well known newspaper man of this city some fifteen years ago. He is of medium size, has light hair and gray eyes, and had on a pair of "overalls," rubber shoes, plain waist and an old gray hat cut off of holes. It is supposed that he has left the shelter of his paternal roof to seek his fortune.

Sell Chicago Real Estate.

Chicago real estate almost sells itself, and does its own talking. A syndicate of wealthy men own Chicago Heights, the manufacturing center of the busiest city in the world. They want one first class real estate man (only) to represent them in this town and vicinity. Handle something you can turn easily. Location, price, terms—all attractive and right. Many factories are built; building contracted for—because they get Chicago freight rates everywhere; cheap fuel; cheap building material; low taxes. This property is selling rapidly now, and heavy, judicious advertising is going to stimulate sales. A live, progressive man, with a following, can learn of a business opening of a very profitable nature by writing today to the Chicago Heights Land Association, Chamber of Commerce, Chicago. Ask for their booklet, "Chicago's Best Real Estate." Best references required.

A PROFITABLE TALK

Our Special Reporter Secures The Facts.

He Determined to Thoroughly Investigate a Subject that is Causing Much Comment, and He Has Succeeded.

(N. Y. Sun.)

Two days ago one of the most prominent professional men in New York published a letter to his wife, as usual as to cause a letter to his wife and a woman much comment. Yesterday I interviewed the gentleman as to the contents of the letter, and he fully confirmed it in every respect. He not only did this but he also mentioned a number of unusual cases which had come under his observation in which little less than a miracle had been performed.

So important has the entire subject become that I determined to investigate it to the bottom, and accordingly called upon Mr. Albert D. Evans, the prominent physician at No. 53 East Tenth street, the gentleman mentioned in my interview with the doctor yesterday. Mr. Evans has made quite a name. A complete knowledge of history, an appreciation of art and reliability are essential in his profession.

"Mr. Evans," I said, "I learn that your wife had a most unusual experience; are you willing to describe it?"

"The gentleman thought a moment and an expression of pleasure passed over his face. 'What I think I will tell you is that my wife once passed through the condition she is in today, I cannot but feel grateful. Nearly three years ago she was at the point of death. I say she was totally blind and lay in a state of unconsciousness. Three doctors attended her and all agreed that her death was only a question of hours, perhaps minutes.'

"May I ask what the doctors called her trouble?"

"Uremia and pro-peral convulsions, as you can imagine how badly she must have been. At least one doctor (it was Dr. R. A. Quinn) said that as she was still able to swallow one more attempt might be made and a medicine was accordingly given her. She seemed to improve at once. In a few days her sight was restored. 'I have had a long, long sleep,' she said, upon recovering consciousness, and I am rejoiced to say that she was restored to perfect health wholly through the use of Warner's Safe Cure, which was the remedy we administered when she was past all consciousness.'

I looked at Mr. Evans as he said this. His face was beaming with satisfaction. He continued:

"The physicians told us, after my wife's recovery, that she could never endure childbirth, and yet we have a fine boy nearly a year old, and do not know what sickness it is. I attribute it all to the wonderful power of Warner's Safe Cure. Why, my sister, who resides in Virginia, was, a while ago, afflicted precisely as my wife had been. I at once advised her to use this same great remedy; it cured her promptly."

"You find that this is specially adapted for women, do you?"

"By no means. I have known it to be wonderful in its power in the case of gentlemen as well. I have recommended it. I speak from my experience entirely, and you should not be surprised that I am so firm a believer in this discovery, which has done so much for me."

I was not surprised, I saw by every word, by every look, that Mr. Evans meant all he said. I had ample confirmation of Dr. Quinn's letter and interview, and I do not wonder that people who have seen such things, who have watched their dearest friends go down into the dark valley and be brought back into the light, should be both enthusiastic and grateful. I, myself, caught the spirit, and I shall be glad if the investigations I have made prove of profit to those who may read them.
